Save the Mt. David Ridgeline Trail

The Ridgeline Trail atop Mt. David has been enjoyed by the community since Cottage Grove was first settled. Valued for its scenic vistas, with panoramic views of the entire city, the trail also provides access to cultural and historic sites that are important to our community.

Unfortunately, public access to this historic trail is now threatened by development. For the first time in the history of our community, no-trespassing signs have been posted on Mt. David.

We, the undersigned, wish to see the Mt. David Ridgeline Trail preserved for future generations. We urge all parties involved to work together to save this valuable community resource.
